

AFRAA AIR TRANSPORT REPORT Quarter 3 – 2025

Global Airline industry performance

In Q3 2025, the global airline industry showed steady but uneven strength. Passenger demand continued to grow at a moderate pace, driven mainly by international travel, with Asia-Pacific and parts of Latin America outperforming other regions. Load factors remained high, indicating that airlines generally matched capacity well with demand. Financially, many major carriers posted solid profits, supported by strong premium travel, diversified revenue streams, and disciplined cost management, although performance varied significantly by region and airline business model.

Despite positive momentum, the industry continued to face structural challenges. Aircraft delivery delays, supply-chain constraints and operational efficiency. At the same time, fuel costs and the slow availability of sustainable aviation fuel (SAF) weighed on margins and long-term decarbonization plans. Overall, Q3 2025 reflected an industry that is profitable and resilient, but still operating on thin margins and exposed to cost pressures.

Global RPKs rose by 6.2% year on year in Q3 2025, while Global ASKs increased by 9.4% as compared to RPKs and ASKs in Q3 2024.

African airlines performance

Passenger Revenue

Passenger revenue in Q3 2025 decreased by 0.2% compared to Q3 2024. Figure 2 provides a graphical comparison of passenger revenue between Year 2024 and Year 2025. Figure 2: Quarterly Passenger Revenue

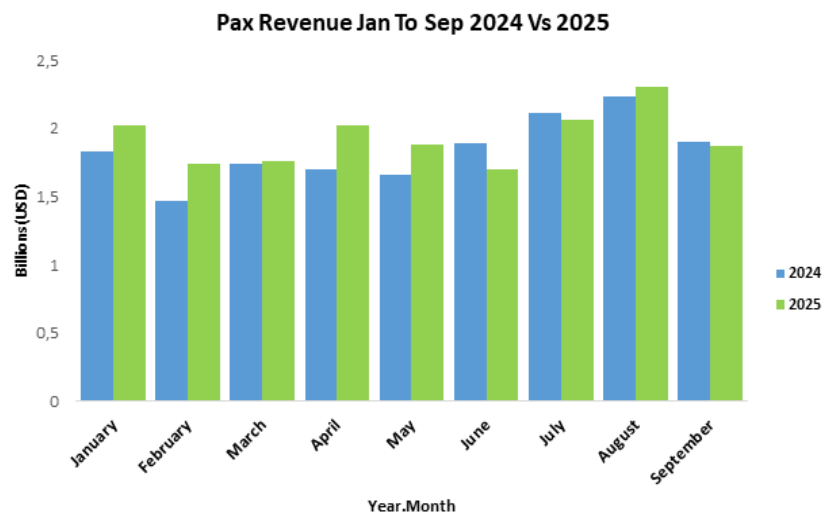

Figure 2: Quarterly Passenger Revenue Source: OAG

Passenger traffic Evolution

In Q3 2025, African airlines continued to show resilient performance, with Available Seat Kilometers (ASKs) and Revenue Passenger Kilometers (RPKs) maintaining positive growth trends in 2025.

The increase in both metrics are by 3.5% and 6.6%, respectively, compared to Q3 2024. Figure 3 below provides a detailed view of the Month-on-Month (MoM) and Year-on-Year (YoY) trends in ASK and RPK for African airlines from January 2024 to September 2025.

Figure 6: African Airlines international passengers destinations Q3- 2025
Source: OAG

In Q3 2025, international traffic is primarily driven by intra-African routes and flights to Europe, each accounting for 49% and 23% respectively. Europe remains the top destination region for African airlines Egypt is the leading country of origin, while France is the primary destination.

Traffic to the Middle East is also notable, comprising around 18%, while routes to Asia and the Americas each account 5% respectively.

Regional Insights

In the third quarter 2025, Northern Africa led the continent in passenger traffic, accounting for 43.1% of the total. Domestic traffic in this region was relatively low, representing only 13% of the total traffic.

Intercontinental travel dominated, comprising 91% of the traffic, while intra-African travel made up just 9%.

Egypt and Morocco are the top two primary source of traffic from Northern Africa to Europe, with France, Saudi Arabia, German, United Kingdom, Spain and Italy being the top destinations.

The Middle East is the second most popular destination region, with Egypt as the leading contributor.

African Airlines Ranking by Traffic (OAG estimations)

Figure 10 below presents a ranking of African airlines, with Ethiopian Airlines leading, followed closely by EgyptAir. Ethiopian Airlines dominance is attributed to its extensive network, reliable service, and strategic hub in Addis Ababa, which facilitates broad international connectivity. EgyptAir's strong performance underscores its historical significance and extensive operational reach across the continent and beyond. These rankings emphasize the growing importance of these airlines in enhancing regional connectivity and fostering economic development within Africa.

Routes Ranking by Traffic (OAG estimations)

Top 10 domestic routes by passengers carried Q3 2025 (OAG estimations)

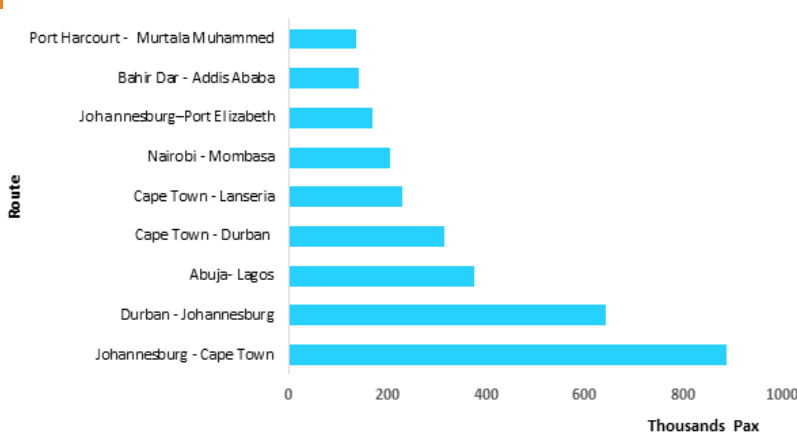

Figure 12 shows the top ten domestic routes in Africa. South Africa dominates the African market in domestic traffic, with 5 of its routes ranked among the top ten in the third quarter of 2025. Additionally Nigeria, Ethiopia and Kenya each have a domestic route represented in the top ten busiest routes.

Top 10 Intra - African routes by passengers carried Q3 2025 (OAG estimations)

Figure 13 shows the top ten intra-African routes by passengers carried in the third quarter of 2025. The busiest intra-African routes are primarily within Southern, Eastern and Northern Africa.

However, routes from Western Africa (Accra-Lagos) also ranked among the top ten in the third quarter 2025.

Airport charges

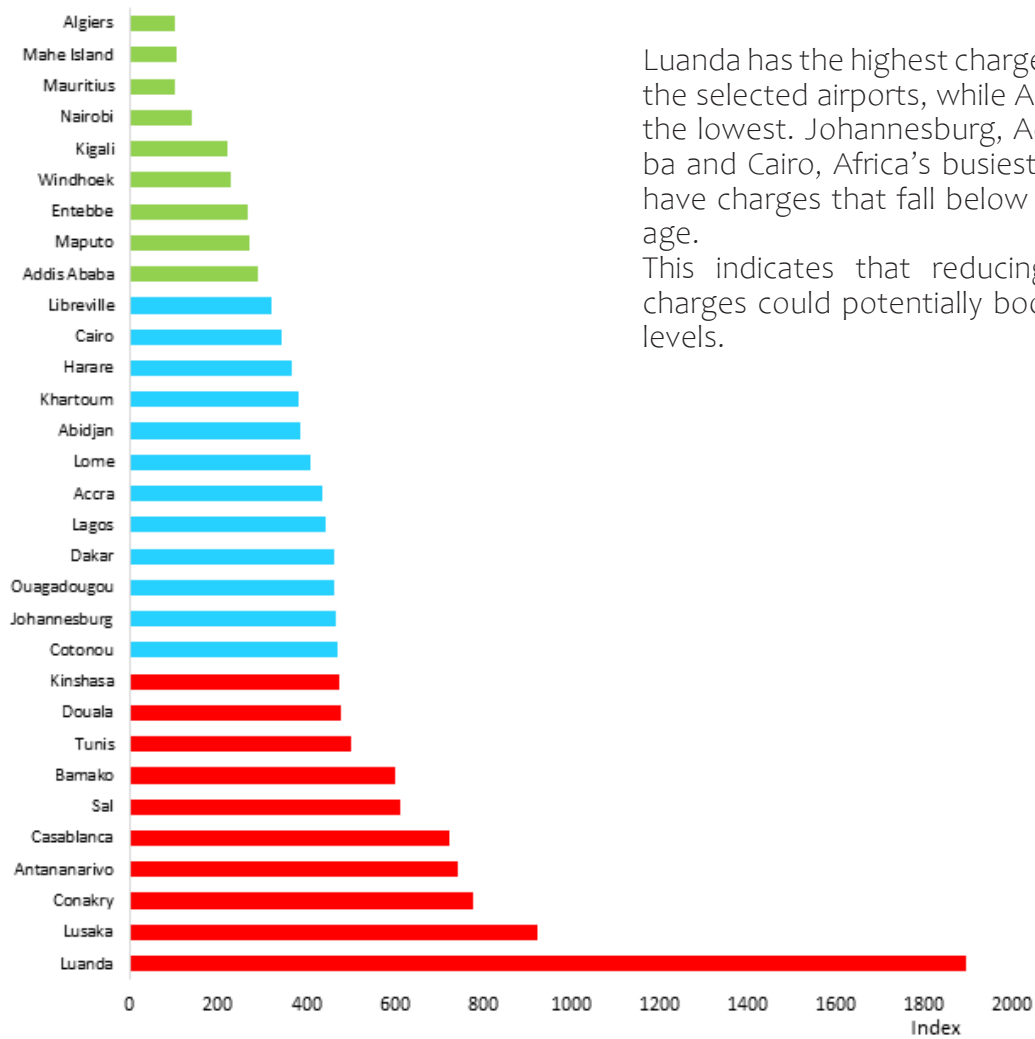

Methodology:

A comparative study based on a single aircraft type applies to all airports with more than 300 thousand passengers in Q3 2025.

The aircraft type chosen is the B737, the most popular aircraft type in the region.

Following the applied criteria:

Aircraft Type	B737
MTOW	70.08 Metric Ton
Flight Type	International
Origin & Destination Pax	100
Total Departing Pax	100
Parking Time	2 Hour
Boarding bridge time	1 Hour
Arrival Time	12:00
Cargo	0 Kilograms

Luanda has the highest charges among the selected airports, while Algiers has the lowest. Johannesburg, Addis Ababa and Cairo, Africa’s busiest airports, have charges that fall below the average. This indicates that reducing airport charges could potentially boost traffic levels.

Intra-African Connectivity

Methodology:

We calculate the total number of possible Intra-African connections between inbound and outbound flights on 20 important African hubs in Q3 2025. The rules selected for the computation are as follows:

- **Single connections only to/from the chosen airports,**
- **Minimum Connection Time from OAG table,**
- **Maximum Connection Window of 6 hours**

The intra-African connectivity reached new heights in Q3 2025 showcasing a significant expansion in air travel links within the Africa continent.

Source: OAG

Direct flights between African countries

During the third quarter of 2025, 7 out of the 54 countries in the African continent offered direct flights to more than 20 other African nations. Ethiopia leads with the most extensive network of direct flights within Africa.

Africa Sub Region	Central Africa	Eastern Africa	North Africa	Southern Africa	Western Africa
Central Africa	41%	13%	23%	10%	16%
Eastern Africa		43%	15%	20%	8%
North Africa			72%	5%	35%
Southern Africa				49%	3%
Western Africa					42%

Visa Openness within Africa

According to the Visa Openness Index, the Gambia and Rwanda offer visa free access to all Africans.¹¹ countries improved their score since last year: one is in the top 10, another is in the top 20.

In 28% of country to country travel scenarios within Africa, African citizens do not need a visa to cross the border, a marked improvement over 20% in 2016.

In 2025, 31 African countries representing 57% of the continent offered an e Visa for Africans, up from nine African countries representing 17% of the continent in 2016.³⁹ countries have improved their score since 2016.

Of the 10 that have most progressed, five are in West Africa, three are in East Africa, and two are in Southern Africa. Nine top 20 ranked performers are lower income countries; four of them are landlocked. Another ten top 20 ranked performers are lower middle-income countries. Lower income countries continue to make progress.
